

Mobile protective screen – simple protection against droplet infection

The best way to prevent transmission is avoiding direct face-to-face contact. But this isn't possible in many cases. This is where the mobile protective screen is the perfect solution. The screen is simply mounted on the counter, thereby considerably reducing the direct transmission route. The protective screen is made of high-quality, transparent plastic.

Benefits at a glance

- Protection against droplet infection
- Robust design
- Flexible use

758Z147 Mobile protective screen

Article number	758Z147
Intended use	Mounted on the counter
Dimensions W x D x H	600 x 200 x 850 mm
Pass-through hatch dimensions W x H	280 x 150 mm
Material	Transparent plastic
